DeLara Communications

The new Trizol Creep non-flammable **penetrating fluid** has been introduced by **DeLara Communications**. The product can be used on surfaces not compatible with traditional petroleum-based lubricants. It is also safe around sparks or flames.

For more information, call 800/359-4913.

Circle #195

EcoFlush Systems has developed a new **water-based system** for cleaning the mixing heads of urethane machines. This system can be used with casting, molding or spraying machines, and is designed for use with both new and old machines. Concentrating flushing fluid is supplied in 1.3-gallon containers, which provide the equivalent of 1,320 gallons of solvent.

For more information, call 212/745-0446.
