A UNIQUE BLEND

TRIZOL Penetrating Solvent has remained the premier penetrating oil/lubricant for seven decades. Unlike traditional lubricants, TRIZOL Penetrating Solvent is made from a unique blend of 100 percent degummed castor oil and other refined petroleum distillates. With its unique ability to penetrate the smallest openings and offer unexcelled lubrication, it far surpasses other brands.

Available in plastic four oz. bottles, aerosol cans, pints, quarts, gallon, five gallon containers and 55 gallon drums.

SAFE, QUICK AND EASY

GRAFFITI-GONE! remover deep cleans the nooks and crannies in brick, block and concrete. This water-based, biodegradable "Super Soap" is safe, quick and easy to use. Applied by low-pressure spray, roller or brush, the thick liquid soaks into the surface texture to release even the

toughest spray paint and leaves no shadows. Amazingly, only a garden hose rinse is needed to wash away the marks. For small areas, even a trigger sprayer with water works fine.

OUTDOOR HEATED MAT

HeatTrak's outdoor heated mats are an efficient and convenient way to eliminate snow and ice accumulation around the facility. The HeatTrak™ mats

lay over walkways, stairs, handicap ramps, loading docks and many other surfaces, to provide a safe passageway for foot or wheelchair access.
